themselves in the interest of this region.

furnishing an independent outlet is the

only apparent safeguard against this un-

precedented monopoly.

Such are the views expressed on either

side of the question, as interest or pre-

judice dictates.

A LUXURY IN BOOKS.—We have been

shown by Mr. M. Johnson, of Oberlin,

Pa., some volumes of the octavo edition

of Audubon's "Birds and Quadrupeds

of America," a work of world wide reputation

and a whole, unrivaled by any work

of the same character in any country.

They are all carefully colored by hand, and

by some of the same artists who originally

colored them under the direction of

Audubon himself, and are, therefore, faith-

ful representations of the original stand-

ard. In the eight volumes of Birds there

are five hundred separate plates, inter-

spersed throughout the text, showing

more than one thousand specimens of

birds in action, together with plants, trees

and appropriate scenery. There are three

volumes of Quadrupeds, there are three

hundred and thirty five specimens of ani-

mal, drawn and colored in the same man-

ner as the birds. The complete set,

comprising eleven volumes, is at once, the

most elegant and intrinsically valuable

work of kind ever published. And it is

completed only by the almost contin-

uous labor of six years, by its renowned

author Mr. Johnson, who is also the

general agent for the New American

Cyclo, etc., supplies the book to special

order only, bound in either plain or rich

style, as desired. As it requires eight

months to the forming of a series of

plates, the sets are necessarily limited.

It is a work of art, and is a good in-

vestment to those who can afford works

of the highest order.

Dr. Brown, President of Hamilton

Co. here, will lecture at the Fairbank Opera

House on Wednesday.

NEW WISCONSIN RAILROAD.—We

are glad to see a new plan, un-

dermined by the State, for the purpose

of promoting the interests of the United

States, and the railroad route is immediately

affected by the proposed plan. Within

the last year, very few companies of

the kind have been organized, and the

result of which has been the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

of the railroad route, and the burning up

The Citizens Meeting and Public

Improvements.

In response to the call of the Council

large meeting of citizens was held at the

Opera House last evening to consider the

subject of public improvements, and the

action of the city authorities in soliciting

the passage of the supplemental act at

ready published in our columns.

The meeting was called to order by Mr.

Callender, President of the Council, on

whose motion Mr. Jesse Smith was ap-

pointed Chairman.

On motion Mr. W. Ames the following

Vice Presidents were appointed: G. C.

Hays, W. B. Stieritz, J. A. Parshall, R.

Hyatt, J. W. Kneen, W. W. King-

land, J. G. Jackson, Geo. K. Anderson,

W. B. Roberts.

The following gentlemen were elected

Secretaries: J. J. Carter, A. A. Dime, J.

J. Holden.

Mr. Callender took the floor, and hav-

ing briefly explained the nature of the

Council in soliciting a public expression,

proceeded to review the history of public

improvements during the last year under

the last bill or charter amendments. He

stated the fact that the amendments sent

to Harrisburg were the fruits of the joint

deliberations of the Council and a com-

mittee of thirteen appointed by the

Council, and that the amendments were

presented to the Council by the Mayor.

He then proceeded to read the amend-

ments, and demanded that they be

accepted. He then proceeded to read the

amendments, and demanded that they be

accepted. He then proceeded to read the

amendments, and demanded that they be

accepted. He then proceeded to read the
